

I lead a small community worship service for the youth in our town, and I have to say that it is SOOO important that stations like K-LOVE be able to continue to broadcast. This day and age there are so many stations and musicians that produce music that are eroding at our culture, at our morals, and our values. Everyday on the other radio stations you hear songs about things like sex, drugs, and crime and its making our children think that these things are normal and healthy ways to behave. We NEED more stations like K-LOVE that send out a positive message. A message about love - about peace - and not about those things that seem to be so popular today and that are destroying our morality in this country. I urge you, if there is anything out there that might interfere with stations like K-love and their ability to be a voice of reason. A voice of encouragement. Please - do NOT all those things to come into play and destroy some of the only hopes we have at staying a healthy and strong country.
